Objective

Enthusiastic and self-motivated student with a strong foundation in HTML, CSS, JavaScript, and TypeScript, along with knowledge of Object-Oriented Programming. Currently expanding expertise in full-stack development and passionate about continuous learning, building impactful projects, and contributing through GitHub pushes.

Education

Bachelor of Technology (B.Tech – Cyber Security)

Ramachandra College of Engineering (JNTUK)

2022 – Expected 2026 | 75%

Projects

Portfolio Demo Website – Developed a personal portfolio demo website to showcase skills.

Mental Health & Well being Website – Built with unique interactive features for stress relief.

Restaurant Website – Designed a responsive food ordering website for better user experience.

Internships

➤ **Cyber Security Intern – SkillDzire (May 2024 – June 2024)**

➤ **Cyber Security Intern – IBM (June 2024 – July 2024)**

Learned to identify potential security threats and system vulnerabilities. Gained exposure to CyberSecurity protocols and basic threat handling. Applied industry tools for breach analysis and countermeasures.

➤ **FullStack Developer Intern – MedSquire Technologies (AUG 2025-PRESENT)**

Responsibilities & Contributions

Contributing to full-stack development learning **MEAN/MERN stacks**, building responsive UIs, designing RESTful APIs, and managing SQL databases. Learning and applying **GitHub, and deployment tools** while collaborating with the team on debugging, testing, and optimization.

Actively enhancing skills in modern frameworks and documenting workflows to support seamless development and delivery.

Skills

Technical Skills: Web Development, Python, Data Structures, Java, ServiceNow, C programming. Soft Skills:

Team Collaboration, Problem Solving, Communication, Attention to Detail, Multitasking **Workshops &**

Hackathons

Ethical Hacking – 2-day workshop by Resilient Cyber Solutions

AI Tools & ChatGPT – 3-hour workshop by Be10x

Web Development Hackathon – National-level 24-hour Hackathon by Brainovision

Certifications

ServiceNow – Certified System Administrator (Global)

ServiceNow – Certified Application Developer (Global)

IBM – Cyber Fundamentals

Scalar – Python Programming

Achievements

Participated in a 24-hour National Hackathon (Brainovision).

Designed and developed multiple projects in Web Development.
